Paper Submission and Peer Review

The Romanian Journal of Dental Research (RJDR) follows as much as possible the recommendations of the International Committee of Medical Journal Editors (Vancouver Group) with regard to preparation of manuscripts and authorship (Uniform requirements for manuscripts submitted to biomedical journals).

All submissions to **Romanian Journal of Dental Research (RJDR)** should conform to the uniform requirements for manuscripts submitted to biomedical journals, drawn up by the International Committee of Medical Journal Editors (ICMJE) see <http://www.icmje.org>.

Submission preparation checklist

As part of the submission process, authors are required to check off their submission's compliance with all of the following items, and submissions may be returned to authors that do not adhere to these guidelines:

1. The submission has not been previously published, nor is it before another journal for consideration (or an explanation has been provided in Comments to the Editor).
2. The submission file is in Microsoft Word document file format.
3. Where available, URLs for the references have been provided.
4. The text is 2.0 line-spaced; uses a 12-point font; employs italics, rather than underlining (except with URL addresses); and all illustrations, figures, and tables are placed within the text at the appropriate points, rather than at the end.
5. The text adheres to the stylistic and bibliographic requirements outlined in the Author Guidelines.
6. If submitting to a peer-reviewed section of the journal, the instructions in Ensuring a Blind Review have been followed.
7. A signed copy of the **Conflict of Interest Statement** and **Author Declaration Form** has been added in the submission process.

Review/editing of manuscripts

Each manuscript will be reviewed by the editors-in-chief and at least two independent reviewers with expertise within the scope of the article, in a double blinded fashion, according to the peer-review protocol.

The publisher reserves the right to edit accepted manuscripts to fit the space available and to ensure conciseness, clarity, and stylistic consistency, subject to the author's final approval.

The Romanian Journal of Dental Research (RJDR)'s policy on the confidentiality of the review process is [available here](#).

Romanian Journal of Dental Research works with
Publons (<https://publons.com/account/register>) to provide reviewers with credit for their work.

Proofs

Corrected proofs must be returned to the publisher within 2-3 days of receipt. The publisher will do everything possible to ensure prompt publication. It will therefore be appreciated if the manuscripts and figures conform from the outset to the style of the journal.

If, following the peer-review process, the article requires only minor changes (language changes etc.) then the manuscript is accepted for publication in its revised form without further input from the author. In case the changes are considered more important (scientific errors or an incorrect use of the language that can affect the quality of the scientific message) the author will be contacted by a member of the editorial committee and it will only be published after he approves the changes considered necessary by the peer-reviewers. In some cases, based on the written approval of the author(s), the peer-reviewers and the chief-editor or the publisher the article may be published alongside the comments of the reviewer(s).

Accepted Articles

Accepted Articles are published online a few days after final acceptance, appear in PDF format only, are given a Digital Object Identifier (DOI), which allows them to be cited and tracked, and are indexed. After publication of the final version article (the article of record), the DOI remains valid and can continue to be used to cite and access the article.

Once the paper is typeset, the author will receive an email notification with the URL to download a PDF typeset page proof, as well as associated forms and full instructions on how to correct and return the file.

Please note that the author is responsible for all statements made in their work, including changes made during the editorial process – authors should check proofs carefully. Note that proofs should be returned within 48 hours from receipt of first proof.

Publication Charges

Romanian Journal of Dental Research does charge the authors for publication article in order to ensure the publication process (cost of DOI, of manuscript manager software, etc).

Fee for the article is 100 Euro, and is to be submitted to Romanian Society for Dental Research, under the title article submitted to RJDR, no...

The authors should pay the fee after the article acceptance.

Access and sharing

When the article is published online:

- The link to the published article can be shared through social media: Facebook, Instagram and LinkedIn.
- The author will have free access to the paper (after accepting the Terms & Conditions of use, they can view the article).

Measuring the Impact of an Article

The Romanian Journal of Dental Research (RJDR) also helps authors measure the impact of their research through specialist partnerships with Kudos and Altmetric.

Data Sharing and Data Accessibility

The Romanian Journal of Dental Research (RJDR) encourages authors to share the data and other artefacts supporting the results in the paper by archiving it in an appropriate public repository. Authors should include a data accessibility statement, including a link to the repository they have used, in order that this statement can be published alongside their paper.

Data Protection

By submitting a manuscript to or reviewing for this publication, your name, email address, and affiliation, and other contact details the publication might require, will be used for the regular operations of the publication, including, when necessary, sharing with the publisher The Romanian Journal of Dental Research (RJDR) and partners for production and publication. The publication and the publisher recognize the importance of protecting the personal information collected from users in the operation of these services, and have practices in place to ensure that steps are taken to maintain the security, integrity, and privacy of the personal data collected and processed.
